

T-PLUS PER TUBI IN ACCIAIO

APPLICATION

A unique product for incorporating branches in existing installations (e.g. hospitals, industrial installations) without the slightest problem.

Saves installation time and costs. Create branches while the system is still in operation. Draining is not necessary, so no air and dirt cannot get into the system. A perfect branch every time due to the trigger. Easy to create a branch, even where space is restricted. Optimum pipe seal. Anti-corrosion coating. Simple preparatory installation with click-in nuts (on models from 1½"). Single use (one shot) trigger mechanism. The trigger is included with the T-plus.

Temperature: 120°C Pressure: PN25

Type	Ø ["]	Ø [mm]	Connection	Thickness adm. [mm]
T-plus DN 15 x 1/2"	1/2"	21,3	Rp 1/2"	2,0 - 3,25
