

STAINLESS STEEL LOCKING GRIFF. - prosystemitalia.com

# STAINLESS STEEL LOCKING GRIFF. - Group Ess-Steel-Locking-Griff

## Application

Safety element for channels to be used instead of simple washers. The Holding Bracket prevents the edges along the opening of the channels from bending, and ensures optimum load distribution.

Suitable for single and double channels.

When loads are imposed along the channels, 41 Holding Brackets provide for additional safety due to embossed teeth, which bite into the channel.

## Technical Data

Material: Stainless steel A2.

Type	Suitable for Sikla channels of width [mm]	Bore [mm]
41/9	41	10
41/13	41	14
