

HOLDING BRACKET HK SS - prosystemitalia.com

HOLDING BRACKET HK SS - Group 1728

Application

Safety element for channels to be used instead of simple washers. The Holding Bracket prevents the edges along the opening of the channels from bending, and ensures optimum load distribution.

Suitable for single and double channels.

When loads are imposed along the channels, 41 Holding Brackets provide for additional safety due to embossed teeth, which bite into the channel.

Technical Data

Material: Stainless steel A4.

Type	Suitable for Sikla channels of width [mm]	Bore [mm]
41/10	41	11
