

NUT FLANGED NT SEC HCP - prosystemitalia.com

NUT FLANGED NT SEC HCP

Application

The Safety Nut is equipped with a self-locking head made of steel (3 parts) being arranged in a conical shape. This offers the highest possible safety against unscrewing. The Safety Nut with flange offers the following advantages:

- Clamping effect directly at the thread – resilient, elastic
- Applicable for all HCP and electrogalvanised screws and threaded rods
- Improved thread moving due to the separated securing segments
- Reusability after disassembling
- High temperature resistance

Technical Data

Material: Steel, Quality class 10, HCP.
